

How to get here from San Jose

From the Juan Santamaria International Airport SJO

By Car

There are plenty of rental companies located at the airport terminal. If you plan to drive, head to the Guapiles Highway (HWY 32) and when you reach Limon, turn right on Highway 36. Travel along the coastline south and you will pass Hone Creek on the right. Take a slight left onto route 256 for about 5km and then right into Puerto Viejo. Pass through town remaining on the main street, you will see Salsa Brava Restaurant on your left, continue straight another 200 metres and Exotica Lodge will be on your right hand side, you will see wooden gates, enter to park and the reception is right there.

By Shuttle Service

Shuttle service is a shared transportation option in an air-conditioned minibus. They are subject to availability and must be reserved in advance. There are shuttle service companies available at the airport or will pick you up directly from your Hotel when in San Jose. Call us to help you arrange your transportation.

By Public Bus

Take a taxi or get to the "Terminal del Caribe" somehow in the centre of San Jose. Take the bus direct for Puerto Viejo de Talamanca. Check the bus terminal for schedules and we highly recommend you purchase tickets in advance.
